All ideas will be considered!

What do you mean by 'idea worth spreading'?

Have you ever told your friends and family something and they responded with: "yeah! absolutely... that's very clever"... maybe it was some advice that you gave, a solution to a problem you thought about, an opinion that most people don't share but you are convinced about it, something you have noticed about society around you that you want to tell people... an idea can be anything that you want people around you to know or think about.

What is a TED Talk?

TED is a nonprofit devoted to spreading ideas, in the form of short, powerful talks (18 minutes or less). TED began in 1984 as a conference where Technology, Entertainment and Design converged, and today covers almost all topics — from science to business to global issues. TED^xLuxembourgCity is an independently run TED event that focuses on the community of Luxembourg and its surrounding areas. More information is on our website.
